## PROFILE

**Highly skilled Front-End Developer** with **4+ years of experience** building user-friendly and interactive web applications using **React** and **TypeScript**. Proven ability to enhance user experience in projects like Learning Management Systems (LMS), design studio interfaces, and Point-of-Sale (POS) systems. I've independently built end-to-end solutions including admin dashboards and dynamic websites—covering both the algorithmic logic and visual design. This hands-on experience has made me highly self-sufficient and capable of transforming ideas into fully functional, production-ready applications.

## WORK EXPERIENCE

**Front End Developer**                                      Oct 2024 – Apr 2025
*Obraz, Baku, Azerbaijan*

- **Led** the end-to-end development of a fully functional web application using React, Material UI, and React Query.
- **Designed and implemented** the entire project architecture from scratch, including folder structure, reusable components, API integrations, and global state management
- **Took full ownership** of the development process, including UI/UX decisions, component design, performance optimization, and deployment.
- **Collaborated** closely with stakeholders to gather requirements and deliver a scalable, responsive, and user-friendly interface.
- **Ensured code quality** through clean coding practices, effective debugging, and modular design.

**Freelance Front End Developer**                           May 2023 – October 2024
*Burncode, Baku, Azerbaijan*

- Developed and updated landing pages using HTML, CSS, and JavaScript
- Made layout and style improvements based on design requirements.
- Ensured responsive design and cross-browser compatibility.

**Front End Developer**                                      Oct 2022 – May 2023
*Clopos LLC, Baku, Azerbaijan*

- **Built and maintained** the back-office system for the POS system, QR-menu, and clopos.com website. Utilized a tech stack including Next.js, React.js, Bootstrap, Tailwind CSS, RSuite library, and Lodash.
- **Enhanced user experience (UX)** through a UI component redesign. Implemented new features to improve system functionality.
- **Reduced application bugs** through proactive testing and a focus on clean code principles.
- **Collaborated effectively** with cross-functional teams (designers, back-end developers) to deliver high-quality solutions.

**Front End Developer**                                          Sep 2018 – Jan 2022
*Gobito Digital Solutions, Istanbul, Turkiye*

- **Developed and maintained** a robust Learning Management System (LMS) software for enterprise use, ensuring it met educational development and learning experience goals.
- **Designed and built** user-friendly and reusable UI components (graphs, tables, CRUD pages) using React.js.
- **Contributed to performance improvements** by optimizing code and adhering to clean code principles.
- **Built and maintained** the Cinema8 Interactive Video Technology project in which the users can create interactive experiences, just drag and drop tools such as questions, feedback, buttons, custom forms, clickable areas and more on videos.

## TECHNICAL SKILLS

- **Languages & Frameworks**: JavaScript, TypeScript, C++, Go, React, Next.js, React Native, Node.js, Express.js

- **Web Technologies:** HTML & CSS, Tailwind CSS, SCSS, Bootstrap, Material UI, RSuite, Styled Components, CSS Modules

- **Database Management**: PostgreSQL, MySQL, MongoDB

- **Animation Libraries**: GSAP, Framer Motion

- **Testing Libraries**: RTL (React Testing Library), Jest

- **Other**: Data Structures, Algorithms

## EDUCATION

**Bachelor's Degree in Mathematical Engineering**                    2014-2019
*Yildiz Technical University, Istanbul, Turkiye*

## LANGUAGES

- English: Upper Intermediate
- Turkish: Native
- Azerbaijani: Native
